A: Nacho cheese!

↔
How old are you ?

I am still young enough to play the game, but old enough to know the score!

↔
Fruit Flies bothering you?
Drill a hole in the cap of a 2-liter Coke bottle. Leave one inch of Classis Coke (not diet or caffeine-free) in the bottom of the bottle, and sit in on the counter top. Fruit flies will crawl into the bottle to enjoy the Real Thing, but won't be able to get back out.

Sanitize the kitchen sponge

Every few days pop the sponge in the microwave oven. Wet it first, and then zap it for about a minute and a half. It will keep fresh and free of bacteria. Make sure it's cool before you take it out.

Antioxidant rich spice

Another herb that is antioxidant-rich is rosemary. According to research, rosemary contains powerful antioxidants that may help to inhibit free radical damage to cells. Rosemary was been revealed to have even greater health benefits than paprika. Using rosemary to season fish, vegetables, egg-white omelets, and salads will give your system an antioxidant boost.

A preacher was standing at the pulpit giving his Sunday sermon when a note was passed to him. The only word written on the sheet was IDIOT. Looking up at the congregation, the preacher smiled and said: I have heard of men who write letters and forget to sign their names but this is the first time I will see a man sign his name and forget to write the letters.

Everyone Welcome

Anger and love are identical they make a person blind. The photographer for a national magazine was assigned to get photos of an enormous forest fire. Smoke at the scene was too thick to get any good shots, so he frantically called his home office to hire a plane. "It will be waiting for you at the airport!" he was assured by his editor. As soon as he got to the small, rural airport, sure enough, a plane was warming up near the runway.

He jumped in with his equipment and yelled, "Let's go! Let's go!" The pilot swung the plane into the wind and soon they were in the air. "Fly over the north side of the fire," said the photographer, "and make three or four low level passes." "Why?" asked the pilot. "Because I'm going to take pictures! I'm a photographer, and photographers take pictures!" said the photographer. After a long pause the pilot said, "You mean you're not the instructor?"

Shorten the drying time

When washing mix weight clothes and cycle is completed, remove the lightweight clothes and load them in the dryer, and allow the heavier clothes to run through the spin cycle one more time, this reduces the moisture in the garments and the items will dry faster.
